Re: Food Distribution in Student Communities

To Our Community Members:

As another member of our larger community and the school districts we serve, we have put together a list of community resources for you to share with families in regards to food distribution.

All districts have reported that food is available in the community March 16-March 30. Generally, districts have reported that if your family has a question, please call the child's building administrator at the local school.

As we navigate each situation, we appreciate the teamwork from everyone that has allowed us to continue our own mission of changing lives and saving lives.

Some districts have shared specific information, please see below:
